Pin cushion templates

CUT 2
One plain & one print if possible

CUT 1:
We will do this together using bondaweb during the workshop
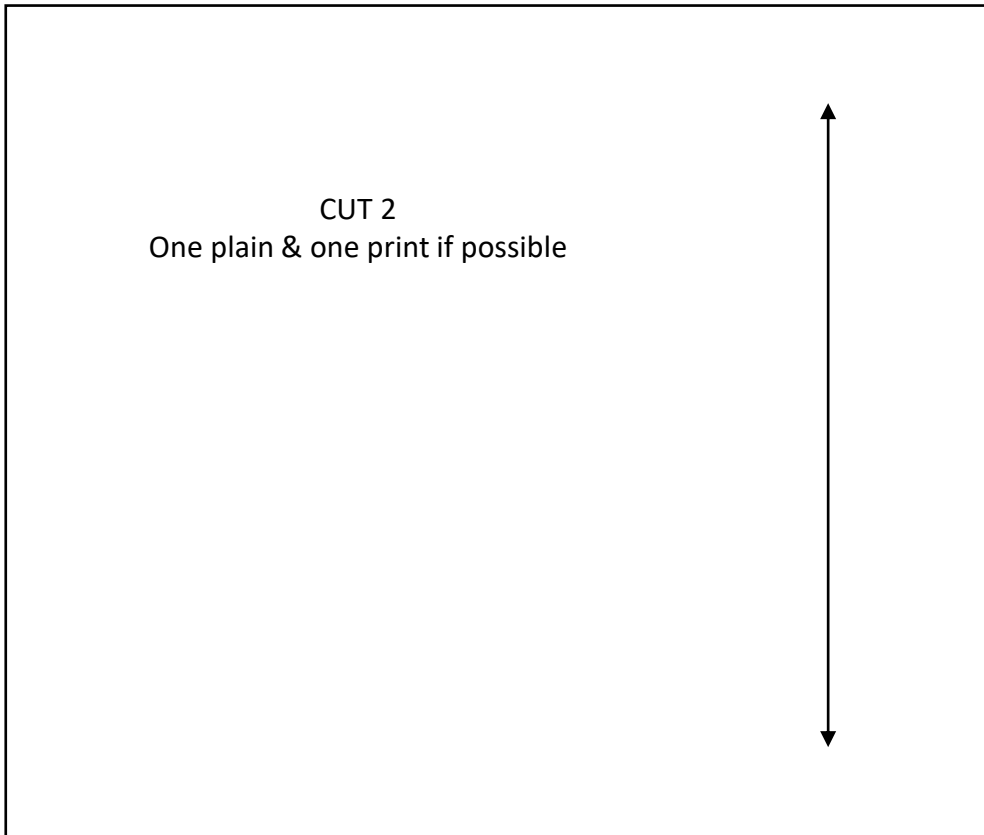

NB: Bondaweb isn't essential for this project. If you don't have any to hand, you can use fusible interfacing or just felt to create your applique shape.

You will need:
2x rectangles 11cms x 13 cms. I like to use two different fabrics for this one plain and one printed but please use whatever you have.

1 x 10cms x 7cms contrast fabric for applique heart

1 x 10cms x 7cms of Bondaweb

Stuffing

IRON ready to use on the day!
