

Sunglasses Case Template

A4 sheet of
paper

CUT AWAY & DISCARD

You will need to create a template for the main fabric and lining sections. To do this take an A4 sheet of paper and cut away 4.5cms from the bottom edge. This will leave you with a template measuring 21cms x 25cms
You will need to cut 2 pieces of fabric with this template;
1 main (outside) fabric
1 lining (inside & top trim) fabric

← Cut away 4.5cms from
an A4 sheet of paper

To complete your case you will need:

2 pieces of fabric 21cms x 25cms
1 x padding 18cms x 18cms
2 strips of thick plastic 2cms x 9cms (you can use an old plastic milk bottle for this but, as it quite thin, I suggest you cut 4 strips 2cms x 9cms. Layer them up in a pairs together and tape them together with masking tape or sellotape.)

Padding template (18cms x 18cms)

Cut 1 of padding

This can be any of the following. It will become an internal layer to protect your sunglasses

Fusible fleece

Thin (2oz) wadding

Felt

Thick fabric

Applique templates – we won't be using these during the workshop but I thought you might like these to complete another applique sunglasses case in your own time 😊
